open 12 mm

The AR020 auxiliary evacuation kit is used to support the evacuation operation when it is not possible to use the knife to cut off the injured person's rope (e.g. the fall was stopped by means of a self-locking device with a steel rope).

The AR020 support kit can be used to support evacuation using the MK-II (AR010) device.

The AR020 auxiliary evacuation kit is not a fall arrest device and cannot be used for such purposes.

PARAMETERS

Weight	1,75 kg
Chain length	1,5 m
Material	aluminium, galvanized steel
WLL working load limit	200 kg
MBS minimum breaking strength	4 kN
